| Description of first aid measure | |
|----------------------------------|---|
| Eye contact | Spashes in the eye must be washed out immediately with clean water for several minutes. Seek for medical attention. |
| Skin contact | • The skin should be washed with water before the emulsion dries, contaminated clothing must be removed to avoid discomfort from adhering paint. Some dried paint films that cannot be washed off the dried paint can be removed with skin cleanser. SOLVENTS MUST NOT BE USED. |
| Inhalation | Discomfort due to the vapours of the residual monomer etc is unlikely to occur, but can easily be relieved by breathing fresh air. |

SECTION 5 FIREFIGHTING MEASURES

Suitable Fire Extinguishing Media :

The emulsion will not burn until water has evaporated for residual solid : Use water spray, carbon dioxide, dry chemical, alcohol-type or universal-type foams applied by manufacturers recommended techniques.

Special Protective Actions For Fire Fighters:

No special fire fighting arrangements are necessary.

Specific Hazards Arising From The Chemical :

Non combustible.

Not considered a significant fire risk, however containers may burn.

SECTION 6 ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment And Emergency Procedure

Eye /skin protection : Where there is potential for eye contact, wear chemical goggles and have eye flushing equipment immediately available. Wear appropriate protective clothing and chemical resistant gloves to prevent skin contact. Wear a face shield and chemical resistant clothing such as rubber apron when splashing is likely.

Respiratory Protection : Not required.

Ventilation : General room ventilation is expected to be satisfactory.

Environment Precaution

Although leakages/ spillages present little hazards, in the interests of preventing slippery or dangerous surfaces, they should be dealt with as soon as possible. Major spills should be collected for disposal. Minor spills may be flushed to a sewer if local regulations permit.

Methods And Materials For Containments And Clean Up

Contain spills immediately with inert materials(eg: sand, earth). Transfer liquids and solid material to separate suitable containers for recovery or disposal

SECTION 7 HANDLING AND STORAGE

Precautions For Safe Handling Avoid smoking and use of open fire. Avoid breathing vapours.

Condition For Safe Storage ,including Any Incompatibilities Store in tightly closed original container in well-ventilated area. Avoid expose to direct sunlight.
