Smart GP Wall Sealer 400
SPWS400
18 Litres

Description

**Smart Wall Sealer 400** is a water-based styrene acrylic interior wall sealer. This product is specially formulated to provide good opacity, alkali, efflorescence resistance and good adhesion property.

Usage

Smart Wall Sealer 400 is painted as a primer to protect the subsequent coats against the effect of mild alkalinity and moisture from the substrate.

Composition

- **Pigment**: Titanium dioxide and mineral extenders.
- **Binder**: Styrene acrylic
- **Volume Solid**: 40%
- **Diluent**: Water

Properties

- **Finishing**: Matt
- **Colour**: White
- **Theoritical Coverage**: 12 – 14 m2/Litre (actual coverage dependent on substrate condition.)
- **Drying Time**: Touch dry – 15 to 30 minutes.
  - Hard dry – 1 hour.
  - *Dependent on temperature and humidity.
- **Recoating Interval**: 1 - 2 hours

Application Method

- **Brush**: For normal use thinning is usually not necessary.
- **Roller**: For normal use thinning is usually not necessary. To assist in application, can thin with 5 – 10% of water.
- **Conventional Air Spray**: Thin with 10 – 20% by volume with water and adjust to requirement.
- **Airless Spray**: For normal use thinning is usually not necessary. To assist in application, can thin with 10 – 20% of water.

Surface Preparation

**General/ New Surface**

- Surface must be sound, clean, dry and free from all defective or poorly adhering material, dirt, grease and wax. (To have a better finish, rub down surface using suitable abrasive and dust off before painting Smart Wall Sealer 400.)
- Allow all surfaces to dry completely prior to painting. Avoid painting when the moisture content and alkalinity of the walls are still high. (Recommended painting specification requires the moisture content of the walls to be below 16% measured by protimeter and alkalinity of the walls to be below pH9.)
Previously Painted

- Remove all loose, defective and unstable paint film or powdery residues by thoroughly brushing and scrapping. High pressure water jet is highly recommended. Treat area affected by mould, lichens, algae and moss with fungicidal wash. Allow substrate to dry completely prior to painting. Avoid painting when the moisture content is >16% and pH>9. Make good minor defects and cracks with suitable filler before painting with Smart Wall Sealer 400.

### Physical and Chemical Properties

- **Appearance / colour**: Viscous liquid with various colour
- **Solid**: <65%
- **Specific gravity @ 25oc**: 1.20 – 1.60
- **Boiling point**: 100 oC
- **Melting point**: 0 oC
- **Vapour pressure (air = 1)**: >1
- **Vapour density (101.3 kpa / air = 1)**: >1
- **Evaporation rate (n – butyl ether = 1)**: <1
- **Solubility**: Miscible with water
- **Odour**: Mild

### Hazard Identification

Not classified

### First Aid Measures

**Emergency and first aid procedures**:

If overcome by vapors, remove to fresh air and if breathing stopped, give artificial respiration. Keep individual calm. Call a physician. If eye contact occurs, flush with water for at least 15 minutes and call a physician. For skin contact, wash thoroughly with soap and water. If swallowed, do not induce vomiting. Drink a glass of water and consult physician IMMEDIATELY.

### Fire Fighting Measures

- **CLASSIFICATION**: Not Combustible
- **FLASH POINT**: NA
- **EXPLOSIVE LIMITS (% BY VOLUME)**:
  - LEL: NA
  - UEL: NA
- **FIRE EXTINGUISHING MEDIA**: Foam, CO2, Dry Powder, sand
- **FIRE FIGHTING PROCEDURES**:
  - Respiratory protection is required for fire fighting personnel. Do not breathe fumes. Stay upwind, if possible.
### Accidental Release Measures

<td>Prevent the product from escape into soil, watercourses or drainage systems.</td>
</tr>
<tr>
<td>Cleaning methods</td>
<td>Eliminate source of ignition. Contain area and keep public away. Recover free liquid by pumping or scooping with shovel into separate container. Use sawdust, sand, earth or other absorbent to prevent material flow. Prevent liquid from entering sewers, watercourse or low areas. Dispose in accordance with local regulation.</td>
</tr>
</tbody>
</table>

### Handling and storage

Keep container closed when not in use. Do not handle or store near open flame, heat, sparks, or strong oxidants. Adequate ventilation required. Avoid inhalation of vapours and contact with skin and eyes. Do not keep product for a long time (>2 years). Keep good house-keeping.

<tr>
<td>Inhalation</td>
<td>Prolonged and repeated may cause respiratory irritation. Signs and symptoms of excessive exposure may include headache or dizziness.</td>
</tr>
</tbody>
</table>
Effects of over exposure: High vapour and spray mist can be irritating to the eyes, skin and the respiratory tract. Excessive inhalation can cause headache, nausea, dizziness or irritation to the respiratory tract and may have other central nervous system effects. Ingestion can cause lungs, kidney and/or liver damage. Overexposure can cause irreversible eye burns and damage. Skin and respiratory sensitization and allergic reaction such as rash, hives or asthma can occur.

Ecological Information

No ecological studies have been carried out on this product.

Disposal Considerations

This product is NOT by either landfill or via municipal sewers, drains, natural streams or rivers must be in compliance with all local laws and regulation.
