SMART-GLO
High Gloss Alkyd Enamel

SMART-GLO High Gloss is a quality alkyd enamel especially developed to withstand the most severe condition of tropical climates. It is made of new yellowing long oil alkyd and light-finess pigments. The enamel has excellent gloss retention and fungus attack. Suitable for the application on wood and metal surfaces, both exterior and interior use.

Surface Preparation
The rust, debris or poorly adhesion old loose paint films, dirt, grease or wax must be scumbled down using suitable sandpaper to smoothen the unevenness and dusted off. Prime one coat of Primer for wood surfaces, or Zinc Chromate Primer for metal surfaces. Follow by one coat of Undercoat. Protected by a patent acrylic resin. The surfactant shall be expressed and dispelled for the first coat of Primer.

Touch dry
1 hour

Recall
3 - 4 hours

Film Properties:
- Quick dry: 40 microns per coat (do not apply too thick in a single coat, split into more layers)
- Theoretical Coverage:
  - 10 - 12 m²/l
- No. of coats
  - 2 coats
- Application
  - Brush, roller or spraying
- Thinning
  - For normal use, thinning is not necessary. Use Thinner for dilution.
