

Smart Etch Primer

SPETCH

1 Litre & 5 Litres

Description

Smart Etch Primer is a 100% Acrylic air drying solvent based formulation. No additional of hardener is required. It suitable for most metal substrates. Highly recommended for Galvanized Iron (GI) and Aluminium substrate. Good adhesion and anti-rust properties. Can be over coated with emulsion or solvent based paint. Suitable for exterior and interior usage on metal.

Usage

Smart Etch Primer is painted as a primer for new and old surfaces especially Galvanized Iron and Aluminium substrate to improve adhesion and antirust properties. Smart Etch Primer is specially formulated on solvent based acrylic resin to provide excellent adhesion to surfaces for repainting purposes.

Composition

Pigment	:	Lightfast Non – Lead Pigments and Mineral Extenders.
Binder	:	100% Pure acrylic
Volume Solid	:	30%
Diluent	:	Toluene

Properties

Finishing	:	Matt finish
Colour	:	Dark Green
Theoretical Coverage	:	10 - 15 m ² /Litre
Drying Time	:	* Touch dry – 20 minutes. * Hard dry – 40 minutes. *Dependent on temperature and humidity.
Recoating Interval	:	30 minutes.

Application Method

Brush	:	For normal use thinning is not necessary.
Roller	:	For normal use thinning is not necessary.
Conventional Air Spray	:	Thin with 10 – 20% by volume with toluene and adjust to requirement.

Surface Preparation

General

Surface must be sound, clean, dry and free from all defective or poorly adhering material, dirt, grease or wax. To have better finish for Pebble Wash, acid wash the surface to remove excess Ordinary Portland Cement residue and flush with fresh water, leave to dry and paint.

Painting Guide

Substrate	Primer	Undercoat	Finish
Galvanised & Aluminium	Smart Etch Primer	White Undercoat	Smart High Gloss
