

DIRECT-TO-RUST

DIRECT-TO-RUST
DTR

**ANTI-CORROSION
FINISH**

SMART DTR (DIRECT-TO-RUST) is a multipurpose water based acrylic coating containing anti corrosion pigment with Semi Gloss Finish.

Anti-Corrosion

Advance formula for long lasting rust protection

2in1 Primer & Topcoat

Saves time and cost.

Apply Direct To Rust

Penetrates rust and adheres strongly to bare metal

Waterbase

Fast drying and environmental friendly.

Weather Resistant

Protects against harsh weather, UV and moisture.

Recommended usage area

Suitable for ferrous and non-ferrous metal surfaces such as steel, zinc, galvanised roof, aluminium, spandex and bondex.

APPLY DIRECTLY TO RUST

PRIMER + TOPCOAT
(ANTI-CORROSION)

2IN1
PRIMER & TOPCOAT

A 2-in-1 coating acts as both a primer and topcoat, providing rust protection and a durable finish in one application, eliminating the need for a separate primer.

- ☐ **Water Based**
- ☐ **Extend life of Metal** (apply direct to rust)
