

Smart DTR Anti-Corrosion Finish

For Exterior & Interior

1 & 5 Litres

Description

Smart Direct to Rust (DTR) Anti-Corrosion Finish is a high-performance, anti-corrosive primer/topcoat formulated with advanced rust-inhibiting technology. It is specifically engineered to provide long-lasting barrier protection against moisture, oxidation, and harsh environmental conditions.

Usage

Smart Direct to Rust (DTR) Anti-Corrosion Finish will chemically passivate the metal surface to prevent the formation and spread of rust.

Composition

Pigment : Titanium dioxide and extender.
Binder : Acrylic emulsion.
Thinner : Water.

Properties

Finishing : Semi Gloss 48° to 55° GU.
Colour : White & variety of colours.
Theoretical Coverage : 7-9 m² (actual coverage dependent on substrate condition, application method & application condition.)
Recoating Interval : Min 3-4 hours (Dependent on temperature and humidity)

Surface Preparation

Ensure all surfaces are completely clean, dry, and free of dirt, grease, and other contaminants before painting. Do not apply if the walls have high moisture. For best results, the walls must have a moisture content below 16% (measured via protimeter).

Painting Guide

Preparation	Details
Surface	Ensure the surface is clean, dry and stable before use
Priming/Top Coat	Apply Smart Direct to Rust (DTR) Anti-Corrosion Finish

Company Identification

Manufacturer : Smart Paint Manufacturing Sdn. Bhd.
