

Smart Fungicidal Wash

SFW

4 Litre & 18 Litre

Description

Smart Fungicidal Wash is a very effective low toxicity bacterial, fungal and algae wash which will kill all film spoilage species. It is used for surface preparation prior to painting.

Usage

Fungicidal Wash is used in the pre-decoration cleaning of paints, masonry, brick, wood and plastering substrate to get rid of fungus growth and to kill any remaining fungus spores left on the substrate, so as to prevent the spore from germination.

Composition

Active : A combination of alkyl dimethyl benzyl ammonium chloride and

Properties

Volume solid	:	Mid Sheen Luxury Finish.
Colour	:	Clear Amber Liquid
Theoretical Coverage	:	Not Applicable
Dry Film Thickness	:	Not Applicable
No. of coats	:	Not Applicable
Drying Time	:	Touch Dry : Not Applicable Hard Dry : Not Applicable

Application Method

Brush / Roller : Apply by painting or spraying and allow it to remain on surface for 24 hours or overnight to eliminate the fungal spore. Clean the fungicidal wash by water jetting with tap water and allow the surface to dry completely before proceeding to painting.

Surface Preparation

Remove all the surface contaminants either by brushing, washing, scrubbing or high pressure water jet.
